

SOLVENCY II TAXONOMY

Quality Assurance project

Philip Allen
Executive Chairman

COREFILING

Our qualifications

- Editors of the relevant XBRL standards
- Members of every significant XBRL working group
- Wide experience of developing taxonomies to deadlines
- 11 years developing XBRL software
- Exceptionally strong technical development experience
- Unparalleled experience in Applied XBRL

Minimising risks

- Inputs – best practice in modelling
- Completeness – match between model and taxonomy
- Consistency – enforcement of architecture
- Repeatability – ability to meet targets
- Versioning – consumption of changes by users
- Adherence to standards – usability by third parties
